

«GARANT BANK» JSC · INTERNET BANKING SYSTEM

Installing the iABS7-Client application and signing in

Instructions for corporate clients (legal entities)

General information

To use the internet banking system of «Garant Bank» JSC, the client must install the **iABS7-Client.msi** application on their work computer.

These instructions show all stages in sequence — from downloading the application to signing in to the system. The application is installed only once.

About the application

iABS7-Client starts automatically even after the computer is restarted and causes the client no inconvenience. There is no need to start it manually each time.

Installation procedure

Step 1. Downloading the application

On your computer, open a browser and go to the internet banking address:

<https://cabinet.garantbank.uz:7005/cib/>

On the page that opens, download the **iABS7-Client-v2.0.0.zip** application to your computer. The downloaded file is usually saved in the «Загрузки» (Downloads) folder.

How to find the file

After downloading, you can find the file in the «Загрузки» (Downloads) folder or in your browser's download list. File name — **iABS7-Client-v2.0.0.zip**, size — approximately **55.8 MB**.

Step 2. Starting the installation

Double-click the downloaded **iABS7-Client-v2.0.0.zip** file quickly twice with the *left mouse button* — inside the zip archive you will see the installation file itself: **iABS7-Client-v2.0.0.msi**. **Once again**, double-click it quickly twice with the *left mouse button* and the installation process will begin.

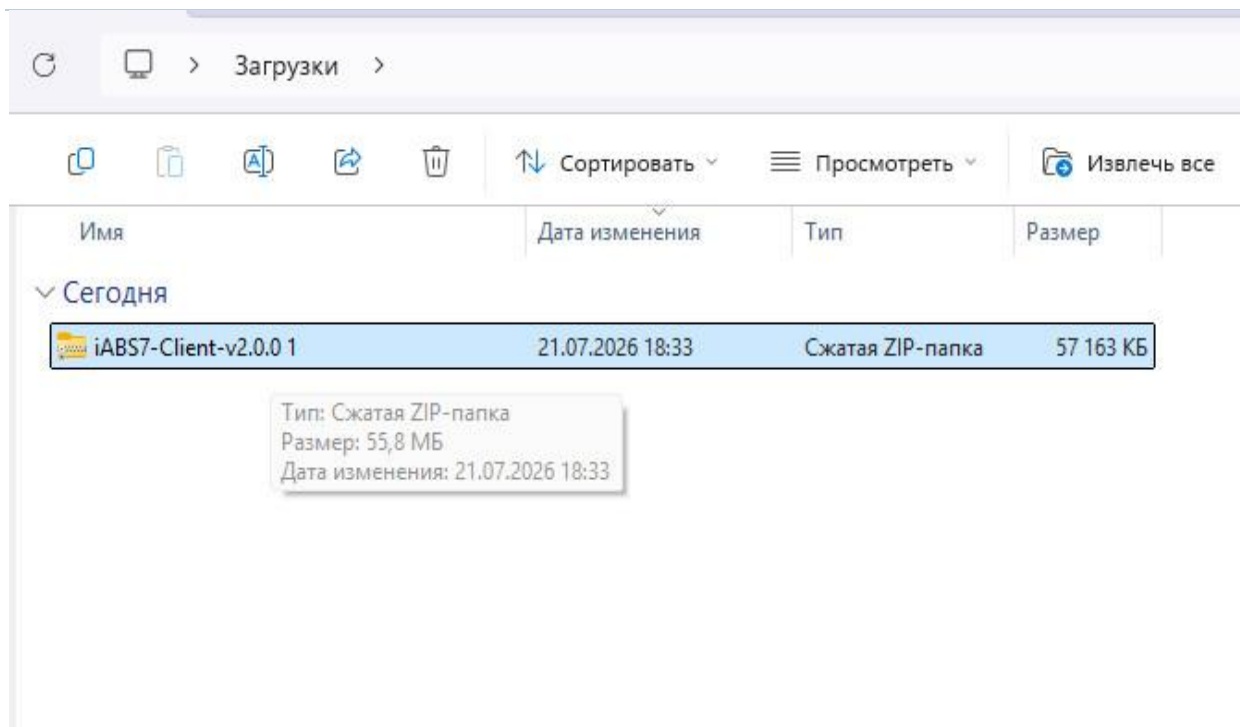

Fig. 1. The downloaded installation file

Step 3. The installation process

The installation will begin. The progress is displayed on the screen — wait until it is completed and do not press anything.

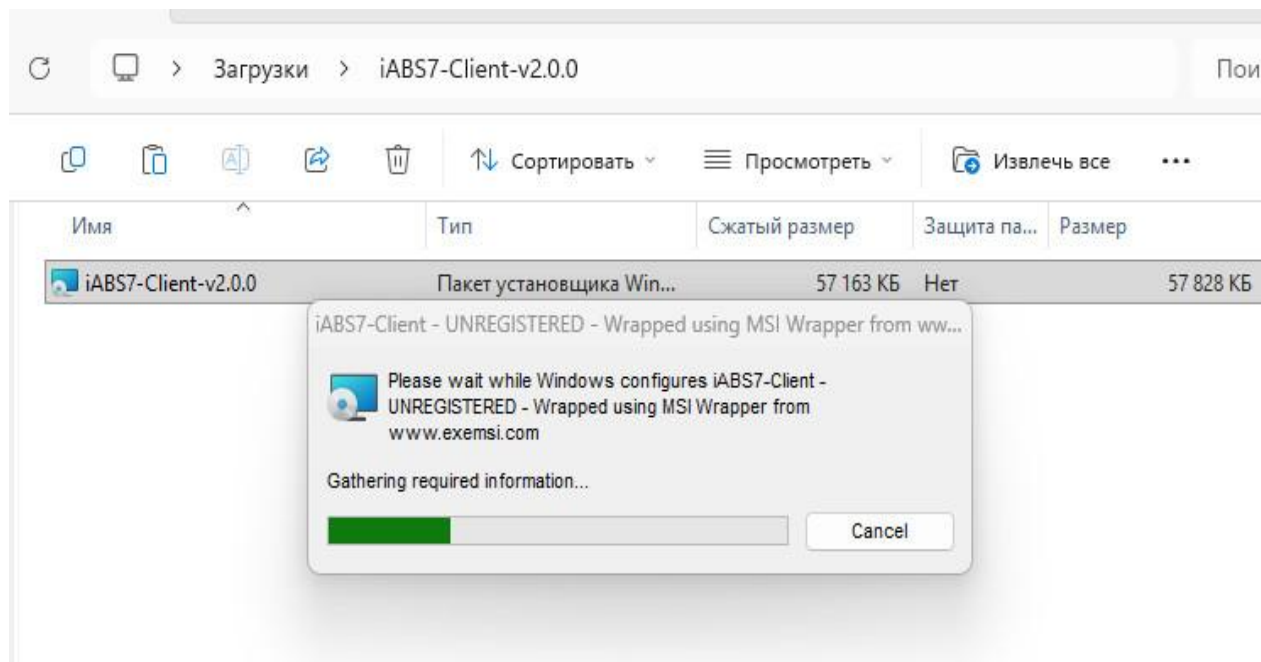

Fig. 2. The installation process

Step 4. Confirming the installation

The «Разрешить этому приложению вносить изменения на вашем устройстве?» (Do you want to allow this app to make changes to your device?) window will appear. To continue the installation, click the «Да» (Yes) button.

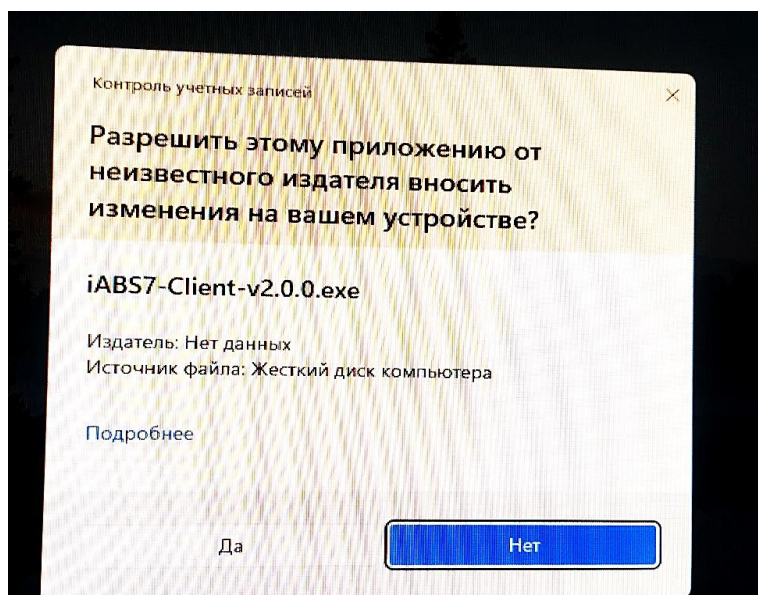

Fig. 3. Confirming the installation — «Да» (Yes)

What is this?

This is a standard Windows security prompt. It appears whenever any application is installed and is not an error.

Step 5. Completing the installation and the application icon on the desktop

Once the installation is complete, the *application icon* will appear on the desktop and in the taskbar of your computer. This means that the application has been installed successfully.

The application is ready

iABS7-Client has been installed and is running in the background. Even if you restart your computer, the application will start automatically.

Signing in to the system

Once the application is installed, you can sign in to the internet banking system.

Step 6. Opening the internet banking page

In your browser, go to the internet banking address:

<https://cabinet.garantbank.uz:7005/cib/>

The «Internet Banking System for Corporate Clients» sign-in page will open.

Step 7. Entering your login and password

In the appropriate fields, enter the login and password issued by the bank, as before, and sign in to the system. Everything is ready — you can now use internet banking.

Everything is ready

The client can sign in to the system by entering the login and password. The application is installed and access to the system is set up.
